ABSTRACT

This second edition of Black Periodicals and Newspapers is a guide to the holdings and locations of more than 600 periodical and newspaper titles relating to black Americans which were received before February 1979 in the libraries of the University of Wisconsin-Madison and in the Library of the State Historical Society of Wisconsin. The guide includes literary, political, and historical journals, as well as general newspapers and feature magazines of the black community. A comparison is made of the number of titles representing each state in this edition and in the original guide. Wisconsin libraries whose holdings appear in the guide are listed. The union list itself is arranged alphabetically by title, and a geographic index to the titles (by state and principal cities) follows. A subject index is also provided. (SW)

Introduction

This second edition of Black Periodicals and Newspapers is a complete revision of the first edition, published in 1975 by the Memorial Library of the University of Wisconsin-Madison. It is a guide to the holdings and locations of more than 600 periodical and newspaper titles relating to black Americans which were received before February, 1979, in the libraries of the University of Wisconsin-Madison and in the Library of the State Historical Society of Wisconsin. It includes older titles which have long since ceased publication as well as those still being published. The scope of the guide is broad, including literary, political, and historical journals as well as general newspapers and feature magazines of the black community. It represents all phases of black thought and action, from the abolitionists of the nineteenth century to the civil rights and black nationalist movements of the 1960's and 1970's. It was prepared in response to the requests of faculty and students who found it difficult to use our rich, but widely dispersed, resources. We hope that this guide will facilitate the use of our collections by scholars locally as well as nationally. It is, we believe, a guide to one of the strongest collections in this field. The second edition shows an increase of about 20 per cent in the number of titles listed, as well as additional locations including two new repositories--the Criminal Justice Reference and Information Center and the Instructional Materials Center.

The arrangement of the union list is alphabetical. An explanation of the standard entry format follows:

---

[1]Western Cyclone. [2]Nicodemus, Kansas; [3]May 13, 1886-Dec. 16, 1887//
[4](Black newspaper)
[5]Hist [6]May 13, 1886-Dec. 16, 1887. [7]Microforms.

---

1. Title. (Organizational main entries are used when appropriate.)
2. Place of publication, if known.
3. Dates of publication, if known. Double slash marks(//) indicate the title has ceased publishing.
4. Sponsoring organization or descriptive phrase, if needed to explain the inclusion of the title in the list.
5. Library(ies) holding this title. (Libraries whose holdings have been included in this compilation, and the symbols used for each, are listed on page xi.)
6. Holdings of the title in the library. Parentheses ( ) around the dates indicate the holdings are of scattered dates or incomplete.
7. Location within each library, if available. Either the call number or an indication that the title is in microforms is provided.

We have also put an asterisk (*) after the location statement if the title is indexed in Index to Periodical Articles By and About Blacks (Boston, G.K. Hall, 1973-), formerly Index to Selected Periodicals (1950-1965) and Index to Periodical Articles By and About Negroes (1966-1972). Following each asterisk we have enclosed in parentheses the inclusive dates indexed.

The Index to Periodical Articles by and About Blacks is held by three libraries on the University of Wisconsin campus: Historical (1950-), Memorial (1950-), and College (1974-). The call number for all three libraries is Z/1361/N39/I55. After the main alphabetical listing is a geographic index which organizes all titles by place of publication. Following this geographic index is a selective subject index. The subject index does not include all titles in the compilation, but it should be of use to persons seeking examples of black publications on subjects such as education and Pan-Africanism.

In this second edition, the number of states represented in the geographic index has increased from thirty-nine to forty-one (plus the Virgin Islands and a second Canadian province). The collections represented in the second edition still do not include any titles from Delaware, Hawaii, Idaho, Maine, Montana, New Hampshire, New Mexico, North Dakota, South Dakota, Vermont, or Wyoming. A separate breakdown by state, province, and country showing the change in number of titles follows:
